## Large Room 20X20

*Wall Surface	528 Sq ft	\$574	2 coats
Ceiling	180 Sq ft	\$323	1 coat (additional coats will be figured 30% less than first coat)
Baseboards	66 Ln ft	\$176	1 coat (additional coats will be figured 30% less than first coat) oak trim typically needs one coat primer and two coats paint
Crown Molding	66 Ln ft	\$194	1 coat (additional coats will be figured 30% less than first coat) oak trim typically needs one coat primer and two coats paint
Door & Casing	Per side	\$49	1 coat (additional coats will be figured 30% less than first coat) oak trim typically needs one coat primer and two coats paint
Window	Per opening	\$54	1 coat (additional coats will be figured 30% less than first coat) oak trim typically needs one coat primer and two coats paint

Basic prep included in price. If major drywall work needs done, cost is \$65 per man hour which includes cost of materials.

\*All Wall Surfaces are figured for 8' high ceilings.

If you have 10' high ceilings, add 25%.

If you have 12' high ceilings, add 50%.

If you have 14' high ceilings, add 75%.

All prices include labor and paint.

\*Pricing includes two coats for walls

\*Trim is figured for one coat of paint, additional coats will be figured 30% less than the first coat

\*Pricing includes moving furniture to the middle of the room

\*Pricing will be different for stand-alone services within a room (ex. Ceiling only...)

\*Additional cost for accent walls

### **Ways to get cost down:**

If all the furniture is out of the room

If we go back the same color, we will only have to paint one coat.
